All menu items listed include food allergens based on standard recipes. Kidd Valley uses shared prep areas and cooking equipment and cannot wholly eliminate the risk of cross-contamination of food allergens. Additionally, we cannot guarantee that any of our menu items will be completely free of specific allergens, as products delivered to Kidd Valley may be occasionally substituted due to shortages at our food supplier. If you have an allergy or intolerance to a particular product, ask employees to check the label on the product in addition to checking the allergens listed here. Kidd Valley offers gluten-free bun alternatives. Note that switching to a gluten-free bun may not result in a completely gluten-free menu item as other ingredients may also contain gluten. Occasionally specialty beverages are offered with allergens different than the one listed here. Ask employees to check the label on the product.
